GLORIOUS GLADIOLUS

Price List

Bay State Bulb Co.

481 South Main Street

MANSFIELD, MASS

TERMS

Terms are cash with order or one third with order and balance before shipment, or bulbs will be shipped C. O. D.

Prices quoted are net postpaid.

No order accepted for less than \$1.00.

Special prices for lots of 100 or more on request.

Even at these extremely low prices you will find included many varieties that are consistent winners at the largest shows. All will produce beautiful flowers. Our stock is carefully grown and of the highest quality, and at these prices offer values which we believe will be hard to duplicate.

In most varieties we can furnish small bulbs, $\frac{3}{4}$ to 1 inch in diameter, at one half these prices. These small bulbs, with good care, will produce excellent blooms, and will make more bulblets than larger bulbs.

We exercise great care in keeping our stock true to name and will replace without charge any bulb proving untrue. An error sometimes occurs but we are always glad to make adjustment to the customer's satisfaction.

CONTROL OF THRIPS

Through years of experimenting on about an average of 25 acres of bulbs per year, we have found the use of bichloride of mercury (corrosive sublimate) very satisfactory in the control of thrips. Soak your bulbs over night in a solution of one ounce of bichloride of mercury powder in seven gallons of water, use glass, wooden or crockery containers as metal destroys the effectiveness of the solution. Soaking your bulbs will delay blooms 10 days to two weeks.

However, this treatment is not an absolute insurance against thrips in your gladiolus fields as thrips can be blown into your garden from elsewhere or from gardens where there has been thrips which have not been destroyed during the winter months. We advise you to be on guard for thrips at all times, especially during very hot spells. As an added precaution, we recommend spraying with the following solution—1 ounce of tartar emetic, 4 ounces of brown sugar dissolved in 3 gallons of water. Keep stirred while spraying as tartar emetic settles in a very short time.

Any further information on any Gladiolus problem for a small or large commercial grower will be gladly furnished if you will drop us a line.

BAY STATE BULB COMPANY

Mansfield, Mass.

We do not aim to become the largest growers of gladiolus in the country notwithstanding our business increased in volume during the past number of years.

It is however our earnest desire to produce and sell the best gladiolus bulbs capable of being grown; to build up a business established upon sound foundation of merit and fair dealing.

We strive to be worthy of the confidence of every patron; to warrant the assurance that every order, large or small will be filled with the best quality of varieties true to name and size, with an absolute guarantee of satisfaction.

We would like to meet each of our patrons personally and thank you for your kind cooperation that has made our present success possible but as we cannot do that we take this opportunity to assure you that we appreciate it and pledge ourselves to serve you conscientiously as the years go by.

Culture directions will be sent with each order shipped.

You will confer a mutual favor if when placing your orders you send us the names of two or three friends who are lovers and growers of beautiful flowers, that we may send them our catalogue.

Wishing you much pleasure and success in the culture of the "King of Flowers" this year we are,

Cordially yours,

BAY STATE BULB CO.

GUARANTEE

All bulbs in these collections are large blooming size bulbs, 1¼ inch or over, in diameter, except No. 1, which are 1 inch and over. All bulbs in these collections are guaranteed to satisfy you. If for any cause you are not satisfied, return bulbs at once to us and your money will be promptly refunded.
